LoJack™ FLEET MANAGEMENT
POWERED BY TomTom

REPORTING

You can only effectively manage what you can measure, report on and analyze.

Difficult fleet management decisions are now much easier to make with LoJack™ Fleet Management Powered by TomTom's powerful reporting capabilities.

Now you can quickly and easily build custom reports that fit your business needs – providing you with the data and insight you need to improve your fleet operation's productivity, profitability, service levels and compliancy.

You can automatically compile reports, 24x7, with real-time and historical data on dozens of parameters defining your fleet's drivers' behavior, vehicles, orders, delivery times, mileage, routes traveled, fuel consumed, and more.

With LoJack Fleet Management, you can trust you're making the right decisions in managing your fleet.

Reports from LoJack Fleet Management can be customized to perform a wide range of analysis:

Productivity Reporting

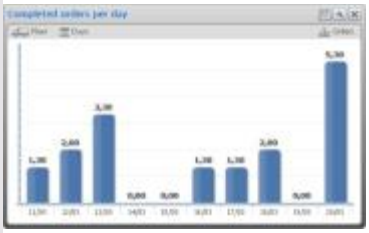
Monitor productivity to improve scheduling and maximize billable time.

- Analyze orders, idle time, trip time, distance traveled, and time spent with customers to maximize billable hours
- Compare individual and group performance to improve overall productivity

Cost Control Reporting

Encourage (or enforce) fuel-efficient driving and target opportunities for savings.

- Spot speeding, idling, and harsh braking and steering
- Monitor and compare fuel spend on both business & private mileage
- Identify excessive mileage or time spent on orders



Service Level Reporting

Complete orders on time and as promised.

- See records of orders and arrival times and share service reliability metrics with your customers
- Analyze time spent driving and with customers

LOJACK™ FLEET MANAGEMENT
POWERED BY TomTom

Eco Reporting

Drive down fuel use and carbon emissions.

- Promote fuel-efficient driving by monitoring driving style
- Analyze trip time, idle time, distance traveled and fuel consumption to identify opportunities for improvement
- Compute carbon emissions for each of your vehicles and work to lower your carbon footprint

Safety Reporting

Promote safer driving across your fleet.

- Spot and address poor driving behaviors
- Schedule services based on maintenance reports
- Limit and monitor driving hours to ensure driver safety

Compliance Reporting

Prove regulatory compliance quickly and easily.

- Get a log of both private and business miles
- Ensure drivers are working within driving time directives

LoJack Fleet Management's powerful reporting capabilities are just one of the many benefits this system offers.
