**LOJACK EXPANDS TO GREATER CLEVELAND AREA TO HELP COMBAT
AUTO THEFT**

Expansion is LoJack's Second New Domestic Market in 2005

CLEVELAND – October 27, 2005 – LoJack Corporation (NASDAQ: LOJN), the global leader in tracking and recovering valuable mobile assets, announced today that it has expanded its Stolen Vehicle Recovery System Network into the greater Cleveland area. This is the second new market for LoJack to date in 2005; the company also expanded into the greater Portland, Oregon area in September.

Thirty-six law enforcement agencies in the greater Cleveland area will use the system in the fight against auto theft. The LoJack Stolen Vehicle Recovery System is directly integrated into law enforcement agencies that use LoJack's in-vehicle tracking equipment to recover stolen assets. The system has a better than 90 percent success rate in recovering stolen cars and trucks.

"Auto theft continues to be a national issue and we're pleased to bring our stolen vehicle recovery solution to the citizens of Cleveland," said Richard T. Riley, President and COO of LoJack Corporation. "This expansion represents the growing demand that we see – both domestically and internationally – for powerful, proven solutions that track and recover valuable mobile assets."

About LoJack Corporation

LoJack Corporation, the premier worldwide marketer of wireless tracking and recovery systems for valuable mobile assets, is the undisputed leader in global stolen vehicle recovery. Its Stolen Vehicle Recovery System delivers a better than 90% success rate and

has helped recover more than \$3 billion in global assets. The system is uniquely integrated into law enforcement agencies in the United States that use LoJack's in-vehicle tracking equipment to recover stolen assets, including cars, trucks, commercial vehicles, construction equipment and motorcycles. LoJack operates in 24 states and the District of Columbia, representing areas of the country with the greatest population density, and highest number of new vehicle sales and incidence of vehicle theft. In addition, LoJack technology is utilized by law enforcement and security organizations in more than 25 countries throughout Europe, Africa, Latin America and Asia.
