

LoJack Top Stolens for 2002 by State

As part of our commitment to educate on the enormity of the problem of vehicle theft, we are releasing the top ten most stolen vehicle models for the year 2002 compiled from LoJack records of reported vehicle thefts and recoveries throughout last year. The data is presented in a National Top Stolen Vehicles ranking and in separate rankings by state. Our rankings are an alternative resource that seeks to complement statistics available through the National Insurance Crime Bureau and CCC Information Service.

Note: Make and model of vehicles are the exclusive identifiers in this listing. Vehicle model series/editions were not distinguished and different series/editions were grouped under the shared vehicle model.
